

### 103C (1,2,3,4,6): Gender

**Student Group:** General Admit Cohort Students

**Background Information:** <https://datavista-staging.cccco.edu/background-info/C>

**Metric Type/Category:** Disaggregations

**Last Updated Date:** 04/23/2025

Description	Students who were in specific gender categories
Notes	<p>At any time during the cohort timeframe, if a student has more than one gender or unreported anywhere in the system, assign the student to the "multiple values reported" category. Since students in that subgroup are more likely to have conflicting student records, there is the possibility that results for multiple students are aggregated into one student especially when a regional or statewide selection is made, values are possibly inflated for that subgroup.</p> <p>SB04 includes X which corresponds to unknown/non-respondent. This category is different than "multiple values reported" which is where students are placed if there is conflicting information at different colleges in the system.</p> <p>"B" for Non-binary is a new value added for SB04 in the summer 2019</p>
