Student Group: Comprehensive Snapshot

Background Information: <https://datavista-staging.cccco.edu/background-info/S>

Metric Type/Category: Disaggregations

Last Updated Date: 09/03/2025

Description	Students who were in specific race/ethnicity categories
Notes	<p>Use latest category provided at the institutional level, or if a student has more than one gender or unreported anywhere in the system at the same district, regional or statewide levels, assign the student to the "multiple values reported" category. Since students in that subgroup are more likely to have conflicting student records, there is the possibility that results for multiple students are aggregated into one student especially when a regional or statewide selection is made, values are possibly inflated for that subgroup.</p> <p>Race/ethnicity is based on IPEDS categories plus Filipino/a category</p> <p>STD10 includes X which corresponds to unknown/non-respondent. This category is different than "multiple values reported" which is where students are placed if there is conflicting information at different colleges in the system.</p>
