Metric Type/Category: Applicant Enrollment

Last Updated Date: 05/21/2025

Description Among applicants who indicated an intent to enroll in the selected college in the selected year, who indicated a goal to place them in the selected student journey, the proportion who enrolled in at least one term as a general admit student at any community college in the selected year

Notes

The denominator includes students who indicated an intent to apply in the selected academic year, based on information provided in CCCApply, and integrates data from international CCCApply

For the years 2012-13 to 2018-19 only colleges using Open CCC Apply are included. Prior to 2018-19, many colleges were not using Open CCC Apply for noncredit students. Data is not available for 32 colleges in 2014-15, for seven in 2015-16 and for three in 2016-17.

The only drilldowns available for CCCApply are Ethnicity, Gender and Age, and some subgroups listed will not be available.

The successful enrollment section includes all students who completed an application, based on the goal they indicated in their application, while subsequent metrics show figures based on students' informed goals after meeting with a counselor.

Applicants who did not provide consent for the release of personal information are not included in this metric.
